

# Colors

VERSA-LOK retaining wall units are available in nine attractive colors that reflect the natural hues of the Upper Midwest. Because VERSA-LOK units are solid and integrally colored, they can be split or modified to create an infinite variety of design elements without loss of color, chipping or peeling.

These colors are available in many markets throughout the Upper Midwest. Contact your VERSA-LOK sales representative for availability in your area. Colors displayed here may differ from actual unit colors due to printing reproduction limitations and variances in production runs. Please make final selections from actual product samples, available from VERSA-LOK-Midwest at (651) 770-3166.
